Email masking	Show first 2 chars + *** + @domain.com Example: pr***@gmail.com – always lowercase
Phone masking	Show country code + + last 2 digits Example: +9167
Dev OTP	Never visible in production. Must be behind a dev/staging environment flag only.

ONBOARDING FLOW SUMMARY

Screen 1	Username entry → Continue (identifies new vs returning creator)
Returning creator	OTP sent automatically → OTP verification screen (skip mobile/email entry)
Returning (both linked)	Show OTP destination choice screen → OTP verification
New creator	Mobile/email entry → OTP verification → Profile setup step 1 → Profile setup step 2 → Success
Profile step 1	Display name + bio
Profile step 2	Profile photo + category
Success screen CTA	"Go to my dashboard" (primary) + "View my page first" (text link)
Final step CTA copy	Last screen only: "Launch my page" or "Take me to my page" – not "Continue"
All other CTAs	"Continue" – consistent across all onboarding screens
